SUMMARY

Junior Full Stack Developer with a strong foundation in web development and hands-on experience building full-stack applications using Laravel and React.
 Passionate about clean code, system fundamentals (Linux, networking basics), and continuous learning.
 Currently seeking a remote internship or entry-level position where I can contribute to real-world projects and grow as a software engineer.

PROJECTS

Car Rental Management System – Full Stack Application

- Developed a full-stack car rental web application using Laravel (REST API) and React
- Implemented authentication and authorization with Laravel Sanctum
- Designed role-based access control:
  - **Admin**: create, update, and delete cars
  - **Users**: view available cars and rental data
- Implemented full CRUD operations for car management
- Designed and managed a MySQL database with proper relationships
- Followed MVC architecture and REST API best practices
- Version control using Git & GitHub

Tech stack: Laravel, React, MySQL, Sanctum, REST API, Git

E-Commerce Web Application – MERN Stack

- Built a complete e-commerce web application using the MERN stack
- Implemented JWT-based authentication and authorization
- Developed admin functionalities:
  - Create, update, and delete products
- Implemented CRUD operations for product management
- All users can browse and view products (read-only access)
- Designed RESTful APIs using Node.js and Express
- Used MongoDB for data storage
- Applied modular architecture and clean code principles

EDUCATION

Car Rental Management System – Full Stack   2023 – 2025

ISTA – Chefchaouen

SKILLS

- PHP (Laravel)
- JavaScript (ES6+)
- React.js
- Node.js / Express.js
- RESTful APIs
- MySQL
- MongoDB
- Laravel Sanctum
- JWT (JSON Web Tokens)
- Role-based access control (Admin / User)
- Git & GitHub
- Linux (basics, command line)
- Virtual Machines (VirtualBox / VMware)
- Basic Networking (TCP/IP, HTTP/HTTPS, ports)

LANGUAGES

- Arabic: Native
- French: Professional
- English: Intermediate

ADDITIONAL INFORMATION

- Available for remote work and flexible with time zones
- Comfortable working independently and in remote teams
- Strong self-learner with a disciplined daily routine
- Actively improving technical and communication skills
- Open to remote internships, entry-level roles, and freelance opportunities
